### **Nurse Manager Job Duties:**

As the Nurse Manager, responsibilities focus on promoting well-being through coordination of care of both individual and organizational services on the night shift. These include but are not limited to:

- Lead all aspects of the resident's care through directing and supervising LPN, Certified Nursing Assistant, Nurse Technician, and Certified Medication Technician team members
- Provide direct patient care through medication and treatment administration, observation, managing acute changes in the resident's condition, and assisting other team members with cares
- Understand and carry out technical oral and written instructions
- Recognize significant changes in the condition of residents, thoroughly assess and document, and take necessary action as indicated
- Review physician orders and documents
- Assist with the development, revision, and implementation of the resident plan of care

### **Required Skills:**

- Associate's or Bachelor's degree from an accredited school of nursing
- Current licensure in the State of Wisconsin as a Registered Nurse
- Advanced knowledge of EMRs
- Excellent bedside manner and communication skills
- Working knowledge of health care laws and regulations
